

SUMIT ANANDRAO KAPSE

B.E. - Information Technology

Ph: +91-7709516410

Email: sumitkapse27190@gmail.com

Pimpri-Chinchwad, Maharashtra, India - 411018

LinkedIn: <https://www.linkedin.com/in/sumitkapse/>

PROFESSIONAL SUMMARY

Computer Science/IT undergraduate with hands-on experience in Machine Learning, Computer Vision, and full-stack application development. Built AI-powered applications using Python, TensorFlow, OpenCV, and Streamlit, with practical knowledge of deep learning model deployment, image processing, REST APIs, Docker, Linux, and cloud technologies. Strong foundation in data structures and algorithms with experience integrating AI models into scalable applications. Passionate about deploying AI solutions in real-world environments, solving infrastructure challenges, and collaborating with cross-functional teams to deliver production-ready systems.

KEY EXPERTISE

C++ Javascript Python SQL TensorFlow Keras Machine Learning Deep Learning Node.js Express.js
REST APIs React.js MongoDB MySQL Docker Git Github AWS Linux Shell Scripting
Data Structures & Algorithms OOP DBMS Operating Systems Computer Networks

EDUCATION

Dr. D. Y. Patil Institute of Technology

2023 - 2027

B.E. - Information Technology | CGPA: 8.01 / 10

Savitribai Fule jr. College , Butibori, Nagpur

2023

12th | MSBSE | Percentage: 74.33 / 100

Balaji Convent And Secondary School , Butibori, Nagpur

2021

10th | MSBSE | Percentage: 90 / 100

PROJECTS

Sales Prediction using python

14 Nov, 2025 - 02 Jan, 2026

Team Size: 1

Key Skills: Python Machine Learning Data Analysis Data Visualization Hyperparameter Tuning Data Preprocessing

Project Link: https://github.com/Sumit27190/Sales_Prediction

Sales prediction project using Python and machine learning to forecast product sales from advertising spend data.

Built regression models (Linear, Lasso, Ridge, Decision Tree, Random Forest, Gradient Boosting, XGBoost) to predict Sales from TV, Radio, and Newspaper budgets.

Performed data cleaning, feature engineering, multicollinearity analysis, scaling, train/test splitting, and model evaluation with R^2 , MSE, RMSE, and MAE.

Tuned hyperparameters using GridSearchCV and RandomizedSearchCV, and selected the best model based on test performance.

Book Connect

Key Skills: React.js Javascript Node.js Express.js MongoDB REST APIs

Project Link: <https://book-connect-two.vercel.app>

Developed a full-stack social platform for book discovery, sharing, and peer-to-peer exchange.

Designed and integrated RESTful APIs for authentication, posts, exchanges, and notifications.

Implemented dual authentication (JWT + Google OAuth) with secure, ownership-based access control.

Built a two-party confirmation system for book exchanges linked to a points and badges engine.

Built responsive, reusable React components for the social feed, profiles, and marketplace.

NutriXplore

Key Skills: Python TensorFlow Streamlit Pandas NumPy Machine Learning Deep Learning

Project Link: <https://github.com/Sumit27190/Nutri>

Developed an AI-powered application for food image classification and nutritional analysis.

Trained a deep learning model on a custom dataset of 5,000+ food images across 20+ categories.

Implemented data preprocessing and augmentation techniques to improve model performance.

Integrated the trained model into a Streamlit-based web application for real-time predictions.
Generated nutritional insights and health recommendations based on identified food items.

Urban Eye

Key Skills: React.js Node.js Express.js REST APIs MongoDB

Project Link: <https://urban-eye-sigma.vercel.app>

Developed the backend for a citizen issue-reporting platform using Node.js, Express, and MongoDB.
Designed and built RESTful APIs for authentication, issue management, and location-based search.
Implemented JWT authentication with role-based access control for citizens and admins.
Built a database schema with a priority-scoring system to surface urgent issues first.
Built responsive React components to display issues, dashboards, and admin controls.

ACHIEVEMENTS

- Runner-up in Code Crackers Coding Competition at DIT
- Solved 400+ Data Structures and Algorithms problems across LeetCode, CodeChef, and GeeksforGeeks
- A-Z ML with python and R - Udemy Certificate

ASSESSMENTS / CERTIFICATIONS

Machine Learning A-Z: AI, Python & R + ChatGPT Prize [2026]

Provider: Udemy

Key Skills:

Machine Learning Artificial Intelligence Python Data Science Deep Learning Neural Networks Data Preprocessing
TensorFlow

PERSONAL INTERESTS / HOBBIES

- Travelling , Reading

WEB LINKS / IMs
